Maneuver your way to defend the universe! Powerful Bugmon aliens are invading Earth, and rumors run rampant that they've smashed the largest armies on the globe, setting the world on edge. This fight won't be won with regular soldiers; only your animal heroes have the guts to stand in their way. As a ship hovers over your city, prepare to defend your base. Select your units, build your defense squad, and line up to defend the future of the planet. They're coming for you, and it's time to send them back to space.

Bugmon Defense is the first defense game to support PVP and moving control. Build your team using killer heroes like the rapid gunner Ro-ckaata and the impregnable shield Toughle, and then upgrade them to improve their skill to make them even more deadly. These heroes will slay the Bugmon and protect your base, so deploy them wisely. You aren't alone in this fight either. Ally with players from around the world and get help from their units, or battle other players and plunder their resources. Each mission completed will bring more knowledge about the Bugmon race, and the knowledge you obtain will provide you with countless Brugmon army patterns and DNA to spawn your own Bugmon army. When they see their own turn on them, they'll never know what hit 'em.

With new ways to defend and more ways to play, Bugmon Defense will steal hours from your day. A network connection is required to play, and although the game is free to download and play, you can purchase in-game items with real money. Please note that you must be at least 13 years of age to play or download under the Terms of Service and Privacy Policy. Conquering the Bugmon army is not child's play. It won't be easy. You won't find victory fast. Build your squad with slick strategy and skill, and you just might save the world.
