Fluffy, soft, flexible restraints don't pack the same punch as solid, cold metal cuffs.

If you really want to make your lover's heart race, take control with a classic: metal handcuffs. Realistic and adjustable, these black Fetish Fantasy Handcuffs send a serious message and will make your lover shiver with anticipation.

The cuffs come with two keys in case you lose one in the heat of the moment and have a quick release feature if you decide to release your naughty lover to please you.

Restrain your lover in the front, from behind, or with the bedposts for a sensual night of bondage play. Don't forget to try them yourself! Nothing thrills more than the feel of cool metal restraining your body as you tug and moan in pleasure.

They're great for role-playing too! Break out your sexy cop costume and show your lover what naughty really is as

you tease and please.
